Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 20 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Fine and warm with sunshine, cloudier and damp later on.

Today:
Starting fine but chilly, with sunny spells developing widely after localised early fog patches disperse. Isolated light showers may develop, ahead of cloudier conditions arriving through the afternoon, giving a damp end to the day in places. Feeling warm inland. Maximum temperature 15 deg C (59 deg F).

Tonight:
Rather cloudy and damp for a time during the evening, eventually clearing southwards to leave drier, clearer and colder conditions later in the night, with a frost developing for many. Minimum temperature -2 deg C (28 deg F).

Wednesday:
A fine but colder day than on Tuesday, although staying dry throughout and still with plenty of sunny spells and light winds. Maximum temperature 10 deg C (50 deg F).

Outlook for Thursday to Saturday:
Mostly dry with variable cloud cover and light winds throughout. Overnight frost and fog patches are possible for many places, although it will feel warm in sunny spells by day.
